## Ecosciences Precinct

*The Ecosciences Precinct is located in the heritage listed Boggo Road Gaol area, Brisbane. Designed by Hassell, it won the Australian Institute of Architecture (John Dalton) Building of the Year Award.*

*The building brings together scientists to discuss themes relating to marine/estuarine; plant and insect; bio security and terrestrial science.*

*Designers used ACO's technical advisory services to determine the correct size of the trench drainage system - KlassikDrain. ACO's Heelsafe® Antislip stainless steel grates ensured the necessary level of slip resistance required for the pavement areas.*
